Soil Machine Dynamics Ltd,

To Whom it May Concern,

**ENQ 19197 69083**

Further to your recent enquiry we now offer to carry out the above works generally per drawing number AT3435-0, the request for quotation number 69083, and as detailed herein.

**Scope of Works**
- Supply and deliver 4nr fabricated angles as per drawing AT3435-0.

**Specification**
- Steel Specification - All steelworks will be UKCA certified to BS EN 1090-2:2018 and fabricated to Execution Class 2. (EXC 2)
- Steel grade to BS EN 10025 S355J2.
- Coating in accordance with SMDW019 – System 2.

**Supply and Deliver - £2,370.00 + VAT**

**Exclusions**
- Intumescent and bituminous coatings to steelwork.
- Provision of contract Guarantee/Performance Bond.
- Other trades.

**Standard Conditions**

**Price Basis, Market Conditions & Procurement**

This quotation is based on current market conditions, including material prices, energy costs and supply chain availability prevailing at the date of issue. In the event of exceptional or unforeseen changes in the cost or availability of key inputs, pricing may require adjustment to reflect such changes.

This quotation assumes that construction issue information sufficient to enable material procurement will be available at or shortly following award. Where such information is not available, or is delayed or incomplete, pricing and programme may require adjustment to reflect the timing of procurement and prevailing market conditions.

AJ Engineering may, where appropriate, proceed with early procurement of certain materials where elements of the design are sufficiently defined. Where instructed to do so, the relevant elements shall be deemed frozen for procurement purposes, and any subsequent changes shall be treated as a variation. Where specified sections or materials are unavailable or subject to extended lead times at the point of procurement, AJ Engineering may propose

alternative sections of equivalent performance. Any such alternatives shall be subject to acceptance by the Contractor / Structural Engineer, including confirmation of suitability and acceptance of any consequential effects on the design and programme. Any resulting changes shall be treated as a variation.

It is assumed that material procurement will be undertaken within a reasonable period following award. Where procurement is deferred due to incomplete or delayed information, any resulting impact on pricing and programme shall be addressed to reflect the timing of procurement and its impact on the works.

**Insurance**

- Public/Products Liability Insurance is £2M primary with £3M additional providing £5M overall
- Employers Liability is £10M in any one occurrence
- Professional Indemnity Insurance up to £5M
