Welded and non-welded pipework systems

Specification

GS-Hydro have been requested to attend site with the materials and equipment required to fabricate hydraulic pipe spools in 316 stainless-steel.

No drawings have been issued for this activity. We have only been provided with guidance regarding the required end connections and have therefore estimated the quantity of pipework required based on the draft design information available.

The following 24 pipe spools will be produced on site:

1-Off – IB2668
1-Off – IB2669
1-Off – IB2670
1-Off – IB2671
1-Off – IB2672
1-Off – IB2673
1-Off – IB2674
1-Off – IB2675
1-Off – IB2676
1-Off – IB2677
1-Off – IB2678
1-Off – IB2679
1-Off – IB2680
1-Off – IB2681
1-Off – IB2682
1-Off – IB2683
1-Off – IB2684
1-Off – IB2685
1-Off – IB2686
1-Off – IB2687
1-Off – IB2688
1-Off – IB2689
1-Off – IB2690
1-Off – IB2691

Our engineers will travel to site on Monday 7th September and, working 12-hour shifts through to Friday 11th September, will manufacture the required pipe spools in situ.

All fabrication shall be carried out in accordance with SMD Specification SMDW002.

Upon completion, the pipe spools will be returned to GS-Hydro's workshop for flushing and pressure testing before being delivered back to SMD for installation by SMD personnel.

Each spool shall be flushed to a minimum cleanliness level of 17/15/12 (NAS Class 6) and pressure tested to 1.5 times the working pressure stated on the relevant drawing, using standard hydraulic mineral oil.

Each spool will be fitted with a temporary identification tag stating the SMD Part Number, revision level, and purchase order number. In addition, the rim of both fittings will be stamped or engraved with the relevant pipe spool part number.

All ports shall be capped prior to shipment, and all sealing faces shall be adequately protected for transportation.

Certification / Documentation to be Provided

- Flushing & Pressure Test Certification

Exclusions

- Painting

Terms and Conditions of Sale

Total:	**£ 14,183.52 (£590.98 per unit)**
Value Added Tax:	Not included.
Time of Delivery:	All tube is ex-stock at our supplier All flanges are ex-stock Germany Labour is available to travel Monday morning to SMD
Terms of Payment:	30 days net monthly
Validity Time:	30 days
Conditions of Sale:	Our standard Terms & Conditions of sale apply, a copy of which can be supplied upon request.

I hope that this proposal covers your requirements in enough detail for the moment.
Please call me directly if you have any other questions.

MANAGEMENT SYSTEM
CERTIFICATE

Certificate no.: | Initial certification date: 08 April 2021 | Valid: 08 April 2021 – 07 April 2024

This is to certify that the management system of
INTERPUMP PIPING GS S.r.l.
Via Giambattista Vico, 2 - 42124 REGGIO EMILIA (RE) - Italy
and the sites as mentioned in the appendix accompanying this certificate

has been found to conform to the Quality Management System standard:
ISO 9001:2015

This certificate is valid for the following scope:
Purchasing, production, design, prefabricating, manufacturing, sales, installation, flushing, pressure testing and commissioning of complete piping systems and separate components, piping modules, flanges, valves, supporting brackets & clamps, reducers and hose assemblies, carried out through the application of all or part of the following procedures: engineering, cutting, bending, pipe end grooving, flaring, walforming, hose crimping, cleaning, preservation, packaging, installing, pressure testing, flushing, commissioning and on-site services.
(IAF: 17, 14, 29)
