Your Ref: SMD LIFT WINCH FLEETING CARRIAGE MACHINING

Date 20/08/2026

Dear Alex,

Project: LIFT WINCH FLEETING CARRIAGE

We thank you for your valued enquiry referenced as above requirement and take pleasure in submitting the following tender proposal.

We confirm the following proposal and pricing:

ROM Pricing Schedule

Item	Description	Qty	Unit Prices	Total Price (£)	Delivery
1	FABRICATION FLEETING CARRIAGE, BACK SPOT FACE x18 HOLES ONLY AS6960 1	1	£1,090	£1,090	DAP@NE28
Total Price				**£1,090**	1-2 weeks

Please note the following terms and conditions, which form an integral part of our offer:

1. This quote is valid for a maximum period of 7 calendar days.

   Please note that the current volatility of raw material prices means that we are only able to hold any quoted material prices for a limited time and subject to material unsold. Whilst we will endeavour to maintain the quoted price, it may be necessary for us to increase the quoted price to reflect any one or more of the following:

   (i) any increase in cost beyond our reasonable control including the price of raw materials', metals traded on the London Metal Exchange and/or increases relating to energy costs (among other matters); and/or

   (ii) any delay caused by the availability of raw materials or metals traded on the London Metal Exchange.

   (iii) any Import Tariffs levied on raw materials.

   We will therefore confirm and secure all material prices with our suppliers prior to acceptance of your order.

2. Prior to any intention or placement of the contract award, W D Close and Sons wish to discuss and mutually agree further terms and conditions of subcontract.

3. W.D. Close and Sons Limited confirm that they are able to complete the works to the defined delivery schedule (if supplied). It is essential to any agreed programme that materials and information from SMD Ltd are delivered to W.D. Close and Sons Limited in accordance with the contract schedule.

4. Our offer, including labour resource levels, is based upon our normal working week of Monday to Friday equating to 37 hours. Options for nightshift, overtime working and/or Saturday and Sunday can be mutually agreed to suit the contract requirements.

(continued)

5. Schedule of Key Dates:
    - Estimated fabrication schedule, see individual items on pricing schedule.

6. Indicative payment schedule:
    - To be discussed.

7. If free-issue materials are required to execute the work, it is paramount that these are made available in accordance with the agreed schedule of works. W.D. Close and Sons Limited cannot accept responsibility for defective free-issue materials.
   There has been no allowance made within our offer for any modification or remedial work required to defective free issued materials.

8. NDT is only included within our quotation if the criteria to deduce quantity and type has been supplied within the specifications and drawings.
   If the NDT criteria is not detailed within the supplied information, it is assumed that NDT is not required for this quotation and will be included at the next stage when more detail is furnished.

9. On review of the information supplied and the materials to be utilised, it has been concluded that W.D. Close and Sons Limited have existing and current approved weld procedures and qualifications available for use, or that the cost for providing additional weld procedures in accordance with the information supplied has been included. However, if for whatever reason there is a change to the welding parameters over and above the information supplied, then the costs for new procedures will be calculated and agreed prior to commencement of welding.

10. We have made no allowance within our offer for the following:

    a) Value Added Tax.
    b) 3rd party Survey

11. General Notes
    a) Material based on Free Issued Fabrication for modification, front pate and bolts removed by SMD.
    b) No coatings requested by SMD.
    c) Please be advised that W.D. Close and Sons Limited have standard welding procedures to cover material grade and sizes, which will be available upon placement of order.

12. Typically W.D. Close and Sons Limited subcontracts the following activities:
    a) Painting
    b) Scaffolding
    c) NDT
    d) Site Moves and Heavy Lifts
    e) Machining
    f) Transportation

SUBCONTRACTING

W.D. Close and Sons Limited utilise specialist subcontractors for activities deemed better suited to technical and commercial completion of the WORK by a third party. Selection of subcontractors is carried out using W.D. Close and Sons Limited strict evaluation of core competency, workload capacity analysis and preferably previous experience working with W.D. Close and Sons Limited.

Final selection of a subcontractor may not be carried out until CONTRACT award to W.D. Close and Sons Limited, but an indication of the services subcontracted is provided below.

Scope Of Work	**Subcontractor**
Painting	GB Coating Services
Machining	
Site Moves and Heavy Lifts	Site plant and overhead cranage
Transportation	WDC, ALS, GCS Johnson
NDT	Charleton Metal Testing

(continued)

13. Project Quality Requirements: To be agreed.

We trust we have interpreted your requirements correctly, however, should you require any further clarification, please do not hesitate to contact ourselves.

Assuring you of our best attention at all times.

Yours faithfully

Stuart Mealing.
