Thank you for your enquiry.
We have pleasure in providing the following quotation as attached.

We trust that we have interpreted your requirements correctly. Our technical advice whether verbal or in writing or by way of trials, is given in good faith but without warranty, and this also applies where propriety rights or third parties are involved.

It does not release you from the obligation to test the products supplied by us as to their suitability for the intended processes and uses. The application, use and processing of the products are beyond our control, and therefore, entirely your own responsibility.

Should, in spite of this, liability be established for any damage, it will be limited to the value of the goods delivered by us and used by you. The manufacturer's warranty will of course apply against defective manufacture of any parts supplied. We will of course, provide consistent quality of our products within the scope of our General Conditions of Sale.

Should you require further details or clarification of our offer please contact the undersigned.

Yours Sincerely,
Sandra Ward
