19th June 2025

Our Ref. *S0625/12*

Re : Quotation No. *62789* ; Part *AE1903*

We thank you for your enquiry for the above, and pleased to quote as follows :

Your Part ***AE1903***.

2 off Type ***GUO*** Double Convolution Oil-Resistant **NBR** Rubber Air Spring Bellows Assemblies c/w Zinc Plated Steel Bead Ring Ends ; Plus Stainless Steel Nuts / Bolts.
Part *GUO/M130-2/NBR/Z.*

Price **£ 2365 .00** each.

Notes :

Bead rings are Zinc Plated Steel, not Hot Dipped Galvanised.
Galvanising causes problems in fitting the rings to the rubber bellows (as it is thicker).
I believe you Xylan coat these anyway ; if you wish we can also look at Xylan coating these.
Stainless steel bead rings also available.

Rubber material is NBR (nitrile), not epichlore, which is no longer available for these items.

As previously supplied.
Certificate of Conformity can be supplied.
Goods manufactured within the EU.

Plus Carriage & VAT.
Prices based on quantity above.

Delivery : 10-12 weeks.
If delivery is a problem, please advise.
Carriage : **£ 65 .00**.

We hope that the above helps. If you have any queries, please ring or email,

Kind Regards,

Trevor Urmston,
Interflex Hose & Bellows Ltd.
E-mail : turmston@interflex.co.uk *Internet : www.interflex.co.uk*

Notes : *Unless otherwise stated* - Quotation is subject to our standard Conditions of Sale (available upon request) ; E&OE ; Prices are ex-works, and exclusive of carriage, packing & VAT ; Validity - 30 days from above date ; Non-standard and custom manufactured products are not returnable.
